

BRITISH HYDROLOGICAL SOCIETY

**SEVENTH
NATIONAL
HYDROLOGY
SYMPOSIUM**

**THE UNIVERSITY OF NEWCASTLE
UPON TYNE**

**4-6 SEPTEMBER
2000**

CONTENTS

Session 1 — Hydrology and integrated water resources

Upstream/downstream competition for water in the Usangu Basin, Tanzania	<i>Baur, P., Mandeville, N., Mbuya, L., Lankford, B. and Boak, R.</i>	1.1
Kielder reservoir and the Kielder water transfer system: ecological impacts and the development of ecologically acceptable flow regimes	<i>Gibbins, C.N., Jeffries, M.J., Soulsby, C. and Acornley, R.</i>	1.9
Management of groundwater resources within the Anglian Region of the Environment Agency	<i>Grout, M.W. and Whiteman, M. I.</i>	1.19
Groundwater management of the River Dour catchment	<i>Jones, C., Singleton, A. and Thorn, B.</i>	1.31
Identifying suitable catchments for integrated catchment management: a case study	<i>Lister, R. and Manning, C.</i>	1.39
The potential for sustainable river basin management in the Cairngorms	<i>Walker, S.</i>	1.47
A case study in integrating stakeholder concerns with the water sciences	<i>Osidele, O.O., Back, M.B. and Fath, B.D.</i>	1.53

Session 2 — The science base: hydrology; land-use and ecosystems

Groundwater-surface water interactions in the hyporheic zone of headwater streams: assessing the influence on salmonid habitats	<i>Soulsby, C., Malcolm, I., Petry, J. and Youngson, A.</i>	2.1
Assessment and modelling of spatial-temporal variability in upland stream chemistry	<i>Foster, H.J., Lees, M.J., Wheeler, H.S., Neal, C. and Reynolds, B.</i>	2.9
Hydrological and hydrochemical factors structuring the invertebrate fauna of Cairngorm streams	<i>Malcolm, R., Gibbins, C.N., Dilks, C.F. and Soulsby, C.</i>	2.15
Nutrient chemistry, management issues and research priorities in lowland permeable catchments: case studies from the Thames basin	<i>Jarvie, H.P. and Neal, C.</i>	2.25
Hydrological pathways of nutrient export from land receiving manures or mineral fertilisers	<i>Heathwaite, A.L., Preedy, N., Matthews, R. and Haygarth, P.M.</i>	2.35
The impacts of mining activities on water resources at the Poura Gold Mine, Burkino Faso, West Africa	<i>Dalton, T.A. and Brown, M.W.H.</i>	2.43
Mine water pollution in the long-abandoned Cleveland ironstone field, north-east England	<i>Younger, P.L.</i>	2.51
Hydroecological classification of urban rivers	<i>Davenport, A.J., Gurnell, A.M. and Armitage, P.D.</i>	2.61
Indices of flow variability and their use in identifying the impact of land use changes	<i>Archer, D.</i>	2.67

Hydrological investigations for wetland conservation: the North Kent Marshes ESA	Gavin, H. and Agnew, C.	2.75
Impact of lowland community forests on groundwater	Calder, I.R., Reid, I., Nisbet, T., Brainard, J., Green, J. and Walker, D.	2.83
Spatial and temporal distribution of runoff generation in upland blanket peat; implications of plot, hillslope, and catchment scale modelling	Holden, J. and Burt, T.P.	2.89
Tidal and recharge controls on groundwater head reversals in a coastal aquifer: an example from the Denge Peninsula, Kent	Ross, D., Gray, R., McWilliam, L., Neighbour, L., Sheedy, A. and Taylor, C.	2.97
A hydro-economic assessment of the benefits of clearing alien vegetation from riparian zones in a South African catchment	Jewitt, G.P.W., Horan, M.J.C., Meier, K.B. and Schulze, R.E.	2.103

Session 3 — The predictive capability and coping with change: environmental data and modelling

Review of a catchment flow gauging network based on the opinions of potential users of the data	Mawdsley, J., Foster, M. and Wass, P.	3.1
Generation of spatially-consistent rainfall fields for rainfall-runoff modelling	Wheater, H.S., Isham, V.S., Chandler, R.E., Onof, C., Northrop, P., Gublin, P., Bate, S.M., Cox, D.R. and Koutsoyiannis	3.7
An elevation-dependent lumped snow model	Sloan, W.T. and Kilsby, C.G.	3.13
Modelling solute transport in rivers under unsteady flow conditions: an integrated velocity conceptualisation	Lees, M.J. and Camacho, L.A.	3.21
Model structures, observational data and predictive uncertainty: explorations using a virtual hydrological reality	Bashford, K. and Beven, K.	3.31
Regionalisation and data mining in a data-scarce environment	Hall, M.J., Minns, A.W. and Ashrafussaman, A.K.M.	3.39
Using a prototype neural net forecasting model for flood predictions on the Rivers Tyne and Wear	Kneale, P.E., See, L., Cameron, D., Kerr, P. and Merrix, R.	3.45
Extreme rainfall and flood frequency distribution modelling for present and future climates	Kilsby, C.G., Burton, A., Birkinshaw, S.J., Hashemi, A.M. and O'Connell, P.E.	3.51
Relating hydrological model parameters and catchment properties to estimate flood frequencies from simulated river flows	Lamb, R., Crewett, J. and Calver, A.	3.57
Predictive capability in estimating changes in water quality: long-term responses to atmospheric deposition	Page, T., Beven, K. and Whyatt, D.	3.65
A framework for development and application of hydrological models	Wagner, T., Boyle, D.P., Lees, M.J., Wheater, H.S., Gupta, H.V. and Sorooshian, S.	3.75

Session 4 — Making the decision; incorporating human and environmental concerns

Guidelines for managed flood releases from reservoirs	<i>McCartney, M.P., Acreman, M.C. and Farquharson, F.A. K.</i>	4.1
An interactive management system for operational control of Kirazdere Reservoir	<i>Rao, Z., Moore, I.N., O'connell, P.E. and Jamieson, D.G.</i>	4.9
Management of scarce groundwater resources: a community approach on San Andres Island, Colombia	<i>Toro, L.E. and Baur, P.</i>	4.15
The friendly By Brook: is there a low flow problem?	<i>Wesselink, A.</i>	4.25
UK river restoration projects: an evaluation of appraisal procedures	<i>Bruce-Burgess, L., Wharton, G. Ogborn, M. and Copas, R.</i>	4.31
Automated catchment rainfall monitoring using weather radar data	<i>Driscoll, S., Harrison, D. and Johnson, C.</i>	4.37
Investigating the value of terrestrial photography for spatial modelling of snow processes	<i>Dunn, S.M., Miller, D.R. and Helliwell, R.C.</i>	4.45
Towards development of a regional hydrometric database system for Southern Africa	<i>Houghton-Carr, H., Sene, K., Fry, M. Boyer, J.-F. and Booyesen, G.</i>	4.53
Hydrological and environmental data management of wetland sites	<i>Gamble, D. and Anderson, M.</i>	4.59

Session 5 — Poster Papers

Evaporation from a wet grazing marsh	<i>Agnew, C. and Gavin, H.</i>	5.1
Sediment transport dynamics in two Northumbrian rivers	<i>Anderton, S., Nelson, T. and White, S.</i>	5.5
The influence of river bed gravel extraction on the sediment regime and morphology of the River Tyne	<i>Archer, D.</i>	5.9
The hydrological characteristics of the UK Easter floods, 1998	<i>Ashfaq, A. and Webster, P.</i>	5.11
Development of a stochastic rainfall model for the assessment of regional water resource systems under changed climatic conditions	<i>Fowler, H.J.</i>	5.13
Comparison of non-linear transfer function and artificial neural network flow routing	<i>Imrie, C., Lekkas, D. and Lees, M.</i>	5.15
Developing a regionalised rainfall model for Europe	<i>Kilsby, C.G. and Burton, A.</i>	5.17
The water efficiency of dual flush toilets	<i>Lawson, R.</i>	5.19
Some features of solute concentration-time profiles derived from tracer experiments in a small river	<i>Wallis, S.G. and Burke, N.</i>	5.21
Groundwater management near wetlands	<i>Whiteman, M.I.</i>	5.23
